ABOUT ME

As a junior React and Laravel developer, I am eager to bring my passion for web development and my willingness to learn to a dynamic team. I am committed to building a strong foundation in React and Laravel With a focus on creating dynamic and user-centric applications, I am skilled in creating responsive interfaces using React components and familiar with creating RESTful APIs with Laravel. I have experience using Git, GitHub as version control. Additionally, I have experience with Ionic framework for creating mobile app. As a fast learner and dedicated team player, I am eager to take on new challenges and expand my skillset to deliver high-quality code that meets business needs.
